

Know You More

Empowering Self-Development

Everyone can make their mark on the World.

We can all shape our future and lead a life that's fulfilling and fun. That journey starts by knowing who we are and what motivates us.

We believe that a deeper level of self-knowledge is critical when making the transition from the world of education to the world of work and beyond. There are no formulas, cookie cutters or prescriptions to help. Everyone is different and how we learn about ourselves, is also different.

Know You More exists to accelerate the self-development of young adults.

We're committed to coaching them to have the skills and confidence to think for themselves so they can take control. And, by empowering young people, the benefits go way beyond the individual. Employers, social enterprises and the wider community reap the rewards of confident and engaged young people.

Our approach allows us to reach young people from all backgrounds. When we coach students, apprentices, graduates or young professionals in organisations, we invest our profits with charities that support young adults.

Our mission is to empower young adults to make the impact they want to make in the World.
